RE: Substitute Unit Well  
Exceptional Location  
Stratigraphic Interval  
**BASKINTON FIELD**  
Franklin Parish, Louisiana

Dear Sir:

Application is hereby made on behalf of Headington Oil Company, L.P. for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Stratigraphic Interval, located in the Baskinton Field, Franklin Parish, Louisiana, created by Office of Conservation Order No. 362, effective January 1, 1957.

1. To designate the Headington Oil Company, L.P. - J. E. Holt D No. 40 Well located in Section 28, Township 16 North, Range 8 East, in the Baskinton Field, Franklin Parish, Louisiana, as a substitute unit well at an exceptional location.
2. To consider such other matters as may be pertinent to this application.

The present unit well, the Headington Oil Company, L.P. - J.E. Holt D No. 1 Well (S.N. 061986) ceased to produce from the Stratigraphic Interval in February, 2002. The present alternate unit well, the J. E. Holt D No. 38 (S.N. 198342) was plugged and abandoned on August 1, 1985. The designation of the J. E. Holt D No. 40 Well, as a substitute unit well, is therefore necessary and in the interest of conservation to efficiently and economically drain a portion of the 40 Acre Stratigraphic Interval Unit which cannot be efficiently and economically drained by any existing well within such unit.

The Stratigraphic Interval in the Baskinton Field, Franklin Parish, Louisiana, was previously defined in Office of Conservation Order No. 362 effective January 1, 1957.

There is attached hereto and made a part hereof a plat outlining the subject Stratigraphic Interval Unit, the present unit well, the present alternate unit well and the proposed substitute unit well. Pursuant to the Revised Rules of Procedure, a list of names and addresses of the Interested Owners, Interested Parties and Represented Parties to whom this application is being sent is being furnished only to the Commissioner of Conservation and to the District Manager of the Monroe District of the Office of Conservation. However, the list will be provided to any party requesting a copy. A diligent effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties as required by the Revised Rules of Procedure.

Finally there is enclosed our check on behalf of the applicant, Headington Oil Company, L.P., in the sum of \$700.00 payable to the Office of Conservation and representing the required hearing application fee.

Sincerely,

LEON E. COMEAUX & ASSOCIATES

Bill McAlister, Jr.
